To Whom It May Concern:

Re: Docket number 94P-0036

We want to voice our concerns regarding labeling of trans fats on the nations food. We believe that it is a good thing to let the mostly unconscious public know what they are eating. Since most of America is overweight, don't you agree that proper labeling may help them make better health choices?? Trans fats are dangerous to our health and the people must know . Since you are in business to serve the people, we want that info on the labels.

Also, we want the food labeled if it in any way shape or form has been tampered with for some sort of genetic engineering purposes.
